

Purpose of the Masters Class

There are 2 Masters Classes each month and they usually occur on the same day. The Classes are 2 hours each. The purpose of these Classes is to continue the Great Ascended Master Instruction that was once given in the Ancient Mystery School in the Himalayas. This is also referred to as the Sacred Knowledge of the Tree of Life. The Ascended Host opened the way in 1930 for this Instruction to be given to the outer world for the great awakening of humanity that is taking place at this time.

Here are some of The fundamentals of the Ascended Master Teachings: The knowledge of the Spiritual Self, the Individualized Presence of God; the Angelic and Ascended Host; the Sacred Fire, the Golden Light of all Christ Illumination; the Spiritual Undying Heart Flameand much more. Once you have awakened and discovered who you are, your own Inner Discerning Intelligence will decide when you are ready to shift from the “Journey of Awakening“ that you have embarked upon through many lifetimes, and ready you to embrace and begin the “Journey of Resurrection.” This is a journey where you will live and experience, visible and tangible, all that you have discovered you truly are.

The Masters Classes bring us into the most dynamic contact and relationship with the Ascended Masters and Cosmic Beings of Light .They share with us specific and important moments of their lives on Earth and give us many Spiritual tools, Mighty Activities of the Sacred Fire that they specialize in, that they have specifically created for us or that they have used when they were upon the Earth in the same path as all of us are upon now. They offer us their Ascended Master Love, blessings, and gifts to use in our daily life that shift and raise us from the many limitations that we face every day, so we can expand the vibration of Light and Love within our multi-body-system with ease and grace, holding the vibration of Peace, Harmony, and Love that we require for this amazing and exciting Sacred Journey.

They offer us their Divine Intervention in our lives for this important “Journey of Resurrection”. They also reveal to us many “Sacred Activities” that the Ascended Masters are involved in at this time regarding the Divine Plan for humanity and the Earth that are happening now that the Seventh Golden Age opened on December 22, 2012. The Ascended Masters always update us on current world events and reveal to us how we can assist them, with certain prayers, calls and visualizations for the Masters of ALL as we continue to anchor in the new Golden Age upon this Planet. This Sacred knowledge of the Tree of Life is given for our Spiritual Growth and Empowerment, to bring forth the final cleansing and purification of the mind, physical garment, and feeling side of Life, that the Holy Spirit, the Feminine Aspect of our Higher Discerning Intelligence, can step forth and give birth to the Christ Consciousness, breaking the human matrix of perception, density, and duality forever.

“I AM, I AM, I AM, by all God’s Love I know I AM the Great Central Sun’s Magnet’s Presence that just pulls and draws upon my attention, that just raises all the energies of my mind, my feelings, my physical garment, my being and world into the highest vibration of Light and Love that I can achieve and sustain each and every day. To the Great Beings who direct the Sacred Fire to the Earth, to the Great Chohans, to the Mighty Elohim, to the Great Avatars of the Great Central Sun, do I give them all acknowledgement and call upon them to clothe me in the Great Central Sun’s Luminous Magnet’s Presence that is a constant drawing, a constant raising of that which is my Earthly embodiment into those phases of Resurrection that opens the way for the Light of my own Christ Self to pour more intensely into my mind, my feelings, and my body.”

~ Decree given by Beloved Akasha, Masters Class 2010
